b6 - any word as yet? Thanks for your continued efforts on our behalf. This continues to be a critical issue for CNRSE/Key West. By way of update, b6 b7c CNRSE b6, has managed to resolve the issues related to the NAVAUDSVC "interim" audit report - Auditor General has engaged and clarified that the Monroe County Officials had been misinterpreting the purposes/scope of their audit and have corrected that misinformation via CHINFO. Any assistance is greatly appreciated! V/r, b6

This is in further response to the 1 DEC 2008 memorandum from your office regarding NAS Key West.

Previously we discussed the DODIG tasking (case # 105900) concerning the 2003 Key West Environmental Assessment(EA). As reported, the NAVINSGEN inquiry did NOT seek to verify the validity of the EA study itself. Rather, the NAVINSGEN inquiry focused solely on an allegation that the EA study was "altered." The inquiry did not substantiate the allegation. This was explained in greater detailed in the Deputy's memo to your office - see 200800680 2nd ltr to DODIG[1].pdf."

You requested a copy of the letter signed by Assistant Secretary of the Navy Installations and Environment (ASN(I&E)) concerning the 2003 EA study. Please see attached - "Penn.pdf." The letter states the Navy reached a Finding of No Significant Impact which addressed off-base noise exposure from aircraft operating at NAS Key West.

Your office's 1 DEC 08 memo indicated that our HCR "did not instill an

(
(
adequate level of confidence that the proper technical authority was consulted, and subject matter expert concurrence was established." This office does not concur on this point. We note that the ASN(I&E) senior level review as reflected in the 12 DEC 2007 attached letter is the highest level of review on such issue within the DON.

Please let us know if you have any further questions.

Signed By: [REDACTED] b6 b7c

Sensitivity: Confidential

All,

Below please find a list of the acronyms:

FONSI: Finding of No Significant Impacts: A document in which the Navy briefly presents reasons why an action will not have significant environmental effects and for which an Environmental Impact Statement (EIS) is not required.
USFF: U.S. Fleet Forces (in 2003 known as Commander, U.S. Atlantic Fleet)
N46: Shore Activities Readiness
EA: Environmental Assessment
NEPA: National Environmental Policy Act

Please don't hesitate to contact me if you would like a set of "environmental eyes" to review any wording to ensure it is accurate.

I also realized I left the word "not" out of my below sentence which should have read, "If DoD IG is looking to provide the complainant guidance on how to further address his allegation that the 2003 EA does not comply with NEPA, recommend DoD IG simply state the findings of the inquiry and make no mention of further redress."

Sir,

As of this morning this is the message I launched to b6 b7c [REDACTED]:

Sir,

On Friday last, a conversation was continued w/ upper management DOD IG on the b6 b7c [REDACTED] case. The bases that Management wants to cover are twofold.

1) We need NAVINSGEN to identify who the proper authority is to address alleged non-compliance with the National Environmental Policy Act. We should be able to provide the complainant with that specific info when we close the case. One reason for the need of this door closer (may) be in response to b6 b7c [REDACTED] past comment stating, (b)(5) [REDACTED]. If

2) a. We will need to coordinate with the Office of General Counsel (OGC) to review our Hotline Completion Report for adequacy and sufficiency in our response, versus what the Navy wants to say in the press release. We desire to speak with one voice. Please forward information on the Release particulars or language of the final draft of the Press Release.

2) b. Additional time will be needed to Coordinate with our (b)6 (b)6 b6 b7c, (b)6 b7c, regarding the press release.

That's where we stand at present. Anything you can offer, do, present, will be greatly appreciated.

Subject: RELEASE OF INFORMATION TO PUBLIC ON KEY WEST EA INVESTIGATION

FOUO

Gentlemen,

I appreciate your efforts to assist NAS Key West answer a specific comment by the Monroe County (includes Key West) Commissioner today that we cannot move forward with a Joint Land Use Study to address encroachment issues here because there is an open investigation on the 2003 Key West EA. Attached is the complainant's e-mail to the Monroe County Commission in advance of today's Commission meeting.

Not being able to respond to baseless allegations is hampering our ability to communicate effectively with the local community on issues critical to Navy and Joint operations at Key West.

We understand that a complaint was made to GAO IG, stating that the 2003 Key West EA was fraudulent and outdated noise modeling software was used, and this complaint was passed to DoD IG. It is also our understanding that the part of the complaint alleging a fraudulent EA was answered by Navy IG and sent back to DoD IG, who is not yet satisfied with the Navy's response.

Respectfully request release of the following statement:

(b)(5)

(b)(5)

From a FOIA perspective, please note President Obama's new policy to release information whenever possible (see attached summary of the new policy). We appreciate your assistance.

From: Naval Inspector General
To: Inspector General, Department of Defense, Assistant
Director, Defense Hotline

Subj: DOD HOTLINE COMPLAINT 105900 (200800680)

Ref: (a) Your ltr of 1 Dec 08
(b) NAVINSGEN ltr 5041/200800680 Ser N68/1083 of
15 Sep 08

1. This is in response to reference (a), in which you advised us that the Hotline Completion Report forwarded in reference (b) did not fully address the issues presented by the complainant.
2. Although the complainant detailed many concerns regarding an Environmental Assessment for Fleet Support Infrastructure Improvements at Naval Air Station, Key West, this office focused only on the issue within the purview of the Naval Inspector General (NAVINSGEN); that is, the alleged altering of a document to give the appearance of compliance with the National Environmental Policy Act (NEPA).
3. A preliminary inquiry was conducted on this case under Navy Case number 200800143, in response to your original information referral forwarded to NAVINSGEN in February 2008. The results of this inquiry forwarded to your office by reference (b) concluded there was no evidence to support the allegation and that no further investigative action was warranted. The inquiry provided additional details concerning a developer's interest in building a multi-million dollar project on Stock Island, Key West, which is believed to be the basis for the allegations of a flawed assessment. The case was closed without further action.
4. You later forwarded this same case to NAVINSGEN in May 2008, this time requesting that the case be changed to an action referral. Since the complaint at issue forwarded under this referral was essentially unchanged, we prepared our response, reference (b), reiterating our earlier findings that there was no evidence that the Environmental Assessment had been altered.

~~FOR OFFICIAL USE ONLY~~

~~Misuse or Unauthorized Disclosure May Result in Both Civil and Criminal Penalties~~

5. The issue of a complainant or a developer's perception that the Navy is not in compliance with NEPA or other environmental standards should be pursued through the appropriate agencies.

6. The NAVINSGEN maintains its position of concurrence with the preliminary inquiry and considers this case closed.
